

# TOLOMEO MAXI

BY  
MICHELE DE LUCCHI  
GIANCARLO FASSINA

**Artemide**

**MICHELE DE LUCCHI**

---

Born in Italy in 1961, Michele De Lucchi designed the Tolomeo in 1987. The lamp now available in sizes from mini to mega is arguably Artemide's most iconic fixture.

Having a background in architecture and industrial design, De Lucchi also favors a craftsman-like approach and since 1990 through the line "Produzione Privata," he has created a series of artisan-produced items such as small sculptures carved with a power saw.

**GIANCARLO FASSINA**

---

Born in Milan in 1935, Italian architect Giancarlo Fassina was a leading figure in Italian avant-garde design beginning in the 1970's. Through his work with the Radical "anti-design" movement he explored scale distortion, color and promoted the social relevance and humor of objects. The Tolomeo, his iconic lamp series for Artemide, was created in collaboration with Michele De Lucchi.

## ICON

---

Since its inception, Tolomeo's award-winning design, engineering, and performance features have been adapted into a wide range of models for table, floor, wall, and suspension application. Tolomeo is the perfect marriage of design and engineering, with iconic features like flexible arm and innovative cable tension system.

## TIMELESS

---

"The Tolomeo lamp was made to go everywhere, stay everywhere, work everywhere. Now in its 30th anniversary, we know it will never become old. Even in the future it will go everywhere, stay everywhere, work everywhere...forever!"

Michele De Lucchi

## MAXI

---

The floor lamp is now available in a new maxi size, featuring a large parchment shade and the same flexible stem as the original. The Tolomeo Maxi complements any interior with its statement making size and iconic modern design.

**EMISSION**

diffused
